Notice regarding the Upcoming Publication of a Central Tender for the Procurement and Provision of Cloud-Based CRM Solutions for the Israeli Government

1. The "Nimbus Project" is a multiyear, large-scale flagship project intended to provide a comprehensive framework for the provision of cloud services to the Government of Israel, while adopting a broad perspective on the procurement and use of cloud services by the Government (hereinafter: the "**Project**").
2. Within the framework of the project, the Israeli Government Procurement Administration (hereinafter: the "**GPA**") has published a number of different tenders, the first of which was Central Tender No. 01-2020, for the provision of cloud services on a public platform, for the government ministries and additional government units (hereinafter: the "**Cloud Tender**").
3. The providers who won the Cloud Tender were Amazon Web Services (hereinafter: "**AWS**") and Google (hereinafter: "**GCP**"), as the first and second winners, respectively (hereinafter, jointly: the "**Nimbus Providers**").
4. We would like to inform you, that the GPA intends to publish in the coming months, a central tender for the government ministries and additional government units, for the procurement and provision of cloud-based CRM solutions, which will be fully provided within the Israeli Region of at least one Nimbus Provider.
5. The terms, requirements and specifications will be detailed in the tender documents, as will be published in the future.

Respectfully,

Daniel Ben Hamo

Tender Manager

Government Procurement Administration
