

לכבוד
אירה פאר, כאן
13.07.09

אירה שלום,

הנדון: רכישת ספרות מקצועית – מתקציב ISF מס' 753/08

במסגרת תקציב המחקר של הקרן הלאומית למחקר ISF מס' 753/08 מוקצה סך של \$ 1000 לשנה לספרות מקצועית (ראי דפים מצורפים).
אנחנו מבקשים לרכוש 5 כרכים של ספרים בנושאים גיאולוגיים – גיאופיסיים אשר יצאו לאחרונה על ידי ELSEVIER לפי הפירט הבא (ראי פרסום מצורף):

1. Volume 1 – Seismology and structure of the earth, edited by Romanowicz, B.
2. Volume 3 – Geodesy, edited by Herring, T.
3. Volume 4 – Earthquake Seismology, edited by Kanamori, H.
4. Volume 6 – Crust and Lithosphere Dynamics, edited by Watts, A.B.
5. Volume 7 – Mantle Dynamics, edited by Bercovici, D.

מחירו של כל ספר \$ 99.95, דהיינו סה"כ \$ 499.75, לא כולל הובלה ומיסים.

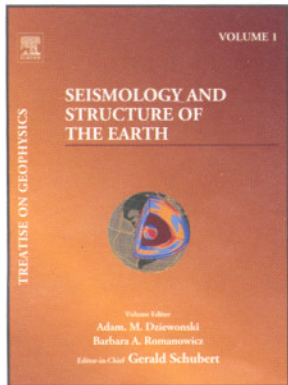

אבקשך לפעול לאישור בקשתנו זו.

בברכה,

עמית שגב וולדימיר ליחובסקי

NOW YOU CAN GET A COPY OF YOUR FAVORITE VOLUME OF THE TREATISE ON GEOPHYSICS. HAVING TROUBLE CHOOSING? USE OFFER CODE 95702 FOR 10% OFF.

Seismology and Structure of the Earth
Volume 1

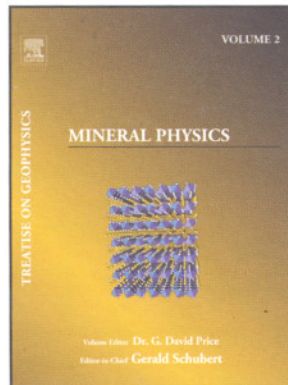

Edited By:
Barbara Romanowicz,
University of California,
Berkeley, USA

Adam Dziewonski,
Harvard University,
Cambridge, MA, USA

Volume 1 provides an overview of the status of geophysics.

Price: \$99.95
Available: Sep 2009
Paperback; 864 pages
ISBN: 9780444534590

Vladi

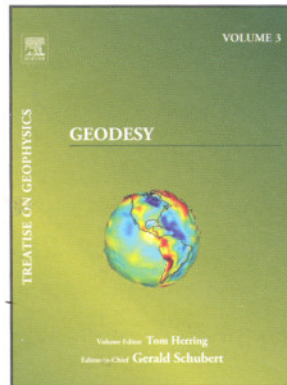

Mineral Physics
Volume 2

Edited By:
G. David Price,
University College
London, UK

Mineral Physics provides the fundamental information needed to interpret deep Earth geophysical data in terms of Earth structure, composition, temperature, and dynamics.

Price: \$99.95
Available: Sep 2009
Paperback; 642 pages
ISBN: 9780444534583

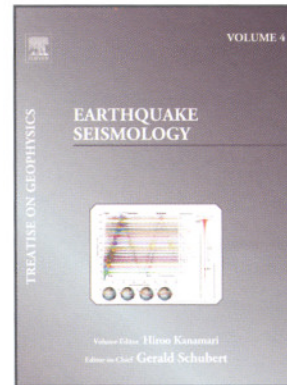

Geodesy
Volume 3

Edited By:
Thomas Herring,
Massachusetts Institute of Technology,
Cambridge, MA, USA

Geodesy explores the theory, instrumentation, and results from modern geodetic systems. Space-based geodetic methods, including Global Positioning System (GPS) and Interferometric Synthetic Aperture Radar (InSAR), are also covered.

Price: \$99.95
Available: Sep 2009
Paperback; 464 pages
ISBN: 9780444534606

Gridi

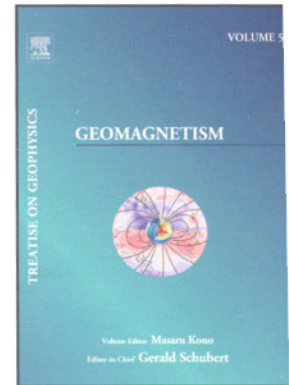

Earthquake Seismology
Volume 4

Edited By:
Hiroo Kanamori,
California Institute of Technology,
Pasadena, CA, USA

This volume presents the most recent findings on the physics of earthquakes. It also covers closely related fields, including tsunami; volcanic seismology and physics; and the interaction between solid earth, atmosphere, and ionosphere.

Price: \$99.95
Available: Sep 2009
Paperback; 720 pages
ISBN: 9780444534637

Vladi

Geomagnetism
Volume 5

Edited By:
Masaru Kono,
Okayama University,
Misasa, Japan

Geomagnetism presents various aspects of the magnetic field of Earth, including mathematical techniques and basic experimental and observational techniques.

Price: \$99.95
Available: Sep 2009
Paperback; 589 pages
ISBN: 9780444534613

MORE INFORMATION, COMPLETE TABLES OF CONTENTS, SAMPLE CHAPTERS

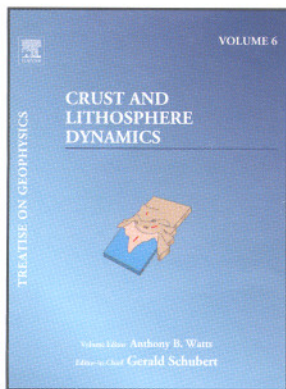

THE FULL 11-VOLUME SET (INCLUDING INDEX) IS AVAILABLE ONLINE VIA

OVER 6,000 PAGES • 978044451928

For information about online access via ScienceDirect

Prices and publication dates subject to change without notice.

**SAVE FOR YOUR OWN BOOKSHELF, AT A VERY AFFORDABLE PRICE.

Crust and Lithosphere Dynamics
Volume 6

Edited By:
Anthony B. Watts,
University of Oxford, UK

This volume brings together the results of studies that are fundamental to our understanding of crust and lithosphere dynamics.

Price: \$99.95
Available: Sep 2009
Paperback; 611 pages
ISBN: 9780444534620

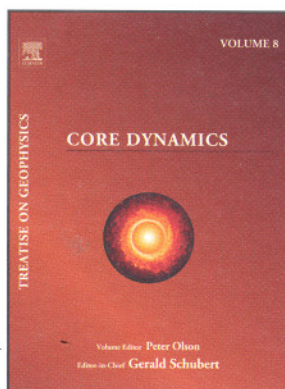

Mantle Dynamics
Volume 7

Edited By:
David Bercovici,
*Yale University,
New Haven, CT, USA*

Mantle Dynamics provides an in-depth overview of the field of mantle dynamics, including energy sources and thermal evolution.

Price: \$99.95
Available: Sep 2009
Paperback; 512 pages
ISBN: 9780444534569

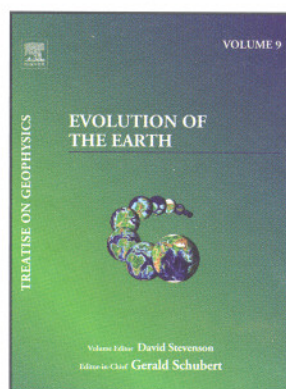

Core Dynamics
Volume 8

Edited By:
Peter Olson, *Johns Hopkins University,
Baltimore, MD, USA*

This volume offers an account of the dynamics at the heart of our planet, with a range of subjects reflecting the breadth and fast pace of research in this field.

Price: \$99.95
Available: Oct 2009
Paperback; 368 pages
ISBN: 9780444534576

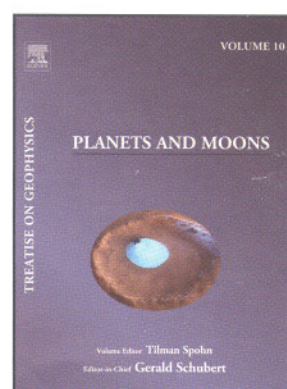

Evolution of the Earth
Volume 9

Edited By:
David Stevenson,
*California Institute of Technology,
Pasadena, CA, USA*

This volume focuses on the formation of Earth, with an emphasis on an interdisciplinary viewpoints reflecting the connections among geophysics and other fields of earth science and evolution.

Price: \$99.95
Available: Oct 2009
Paperback; 320 pages
ISBN: 9780444534644

Planets and Moons
Volume 10

Edited By:
Tilman Spohn, *DLR Institute of Planetary Research, Berlin, Germany*

Planets and Moons covers topics relating to the physics of the major planetary bodies in the solar system. In addition to providing a review on the solid planets and satellites, this volume addresses the interactions of the solid surfaces with the atmosphere, as well as the roles of water and ice to shape the surfaces.

Price: \$99.95
Available: Oct 2009
Paperback; 641 pages
ISBN: 9780444534651
