Dear Mr. Glidai:

I have attached our Invoice #12284, which covers Software Update Support ("SUS") for the calendar year 2013. Although the SUS invoice only lists the major program names, this support covers all of the KLT software currently installed at the Survey of Israel. The KLT ATLAS programs are developed by KLT Associates, Inc., which is the sole provider of these programs and support services worldwide.

KLT's SUS includes product improvements and enhancements, as well as customer support by telephone, facsimile and email. It also includes new versions of the software, which we are constantly developing, in order to keep pace with the ever-changing computer hardware and operating systems. Latest versions of our software are available at [www.kltassoc.com](http://www.kltassoc.com).

Thank you once again for choosing KLT ATLAS software. If you need to contact me, please remember that my email address is [ken.thompson@kltassoc.com](mailto:ken.thompson@kltassoc.com).

Sincerely yours,  
KLT Associates, Inc.
