Re: Tender 78/2014 - Supply of multi-threat body armor for patrol officers

Update no. 5

Further to the tender documents published on October 6, 2014, and in response to questions brought up at the suppliers conference and received in writing, attached please find answers to clarification questions and/or requests, and amendments and clarifications to the tender documents.

1. It is clarified that the form of the questions detailed below is not necessarily identical to that used by those addressing inquiries to us, and that not every question has necessarily been answered.
2. All the clarifications, changes and amendments set out in this letter of clarification will be considered to be part of the tender documents, and the terms used in this letter of clarification will have the same meaning as in the tender documents.
4. Interpretations given verbally, in writing, or in any other way by anyone on behalf of the Client or by INP representatives, insofar as may have been given, in any forum or in any form whatsoever, should not be relied upon. The only changes from that stated in the tender documents, and all the interpretations and clarifications thereof, are exclusively as detailed in this notification and other notifications to be sent out by the author of the tender or on his behalf, insofar as may be issued.
5. That stated in this notification does not change or derogate from that stated in the tender documents unless explicitly stated otherwise.
6. **To remind you, the last date for submitting bids is Tuesday, January 6, 2015 at 2 pm.**

<u>No.</u>	<u>Question/ Answer</u>	<u>Question wording</u>	<u>Section in Tender/specifications</u>
1.	Question:	In the specifications , the weight of the outer mantle of the body armor was not specified.	Section 8 in the Specifications
	Answer:	Maximum allowable weight of the outer body armor is: Size Small - 1.3 kilogram Size Medium - 1.4 kilogram Size Large - 1.45 kilogram Size X Large - 1.6 kilogram	
	Question:	In section 8 in the specification, it states that the maximum allowable weight for the combined protective layer is 8.3 kg / square meter.	Section 8 in the Specifications
2.	Answer:	We would like to clarify: Maximum weight of 8.3 kg / square meter is for the combined protective layer including the cover wrapping the combined protective layer.	

Sincerely,

Roe Ikin
