Q&A for advertized tender number 6/15

Re: Request for Proposals for the Provision of Consultation Services for Market Optimization & Best Available Practice During Electricity Market Reconstruction

1. Question: Is it possible to submit the proposal through a company, such that the company will provide administrative support but the consulting services will be provided personally by me.

Answer: Yes it is possible as long as the consultant (and not only the company) will meet all the requirements specified in the tender.

2. Question: With regard to the costs of the proposal. Do you require a breakdown by hours and specific expenses or only a flat rate for each task?

Answer: We require a flat rate for the task that includes already all expenses.

3. Question: Consulting reports are usually confidential. May we instead attach a letter from satisfied clients?

Answer: No. Letters from satisfied clients are not sufficient. The tender committee is obligated to confidentiality of the content of the reports submitted by the bidder. The committee will shred the reports after announcement of the winning bidder.

4. Question: Is notarized affidavits meets the requirements?

Answer: Yes.

5. Question: Is it possible to present a personal extensive international experience of no less than 3 countries as mentioned in paragraph 6e but for a period which is longer than 5 years?

Answer: Yes it is possible. The tender committee clarifies that the requirement of 3 countries means experience in 3 deferent independent system operators (ISO's).

6. Question: In order to prevent possible discrimination between Israeli bidder and international bidder, please clarify that the bid excludes Israeli V.A.T, if the work is done by an Israeli bidder.

Answer: The bid should include V.A.T. and all other expenses as mentioned in the tender.

7. Question: The tender requires 2 academic works. Such a requirement could reduce the number of bidders. Since the work that is expected to be done is not an academic one but rather a consulting service, such a requirement could unnecessarily discriminate between potential bidders and reduce the number of the actual bidders. We ask therefore to eliminate this requirement.

Answer: The tender committee rejects the request. Strong academic background is essential for the required consulting service.

8. Question: Please check a possible mistake in page 27 Appendix C to the agreement "Undertaking to maintain Confidentiality". The agreement is mentioning "gas" confidentiality agreement while the required service is consultation for Market Optimization & Best Available Practice. Also, we ask to eliminate altogether the confidentiality agreement requirement as it is not relevant for the required consulting service. If the tender committee will still require a confidentiality agreement we ask the committee to change this agreement such that the company's bidder and not the person performing the job will sign the required confidentiality agreement.

Answer: Attached is the correct confidentiality agreement. Both the company and the person performing the consulting services are required to sign the confidentiality agreement.

9. Question: We cannot provide any obligation that our hired workers will work elsewhere in the future without any absence of conflicts. Therefore we ask that only the bidding company (and not it's employees) will sign the absence of conflicts agreement.

Answer: The tender committee rejects the request. Both the company and the person performing the consulting services are required to sign the absence of conflicts agreement.
