Ramee
Israel

To Whom It May Concern,

Deep Sea Electronics Ltd (DSE) is one of the world's top designers and manufacturers of control modules for generators, automatic transfer switch control modules, battery chargers and programmable controllers for engines and off highway machinery. Quality has been at the forefront of our business since the company started trading more than 45 years ago. We are committed to continuously improving our products, service and processes to exceed customer expectations and requirements.

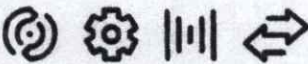

With regard to the above company we, Deep Sea Electronics Ltd., can confirm that Shmerling Synchro Eng. Ltd. are an official Distributor of all DSE products within the country of Israel for 2022.

They have our full support in supplying the best quality local support and expertise pertaining to the products and are in compliance with Deep Sea Electronics Ltd. terms & conditions.

A handwritten signature in blue ink, appearing to read "Craig Lysons".
