Hello Yoav,

Safe Software does not currently have any resellers located in Israel. You are free to find a reseller located close to you <http://www.safe.com/about/contact/find-a-sales-partner/>

or if you choose you can purchase directly from Safe Software.

Warm Regards,

-Craig

Use of FME® is subject to Safe Software's License Agreements: [FME Desktop](#) and [FME Server](#)

Subject: purchasing the FME ESRI solution

Dear Sir/Madam

We would like to make a local purchase of the FME ESRI solution license.

As a government agency we are required to adhere the Israeli governmental procurement regulations, which in this particular case we have two options:

1. If Safe SW have at least 2 official resellers in Israel, we are required to make a beading and ask from each one of them a quote.
2. If Safe SW have a sole reseller in Israel, than we will need from you a letter that refer us to the particular one, as an official sole reseller.

I will appreciate your help in referring me to all of your resellers in Israel, or either send me an official letter with the name of your sole reseller in Israel.

Best Regards,

Yoav Tal
