REQUEST FOR INFORMATION (RFI) NUMBER 280219
NATIONAL BIOMETRIC LABORATORY - Reply to Clarification Questions

- Attached please find our reply to the clarification questions as mentioned in section 7 of the RFI.

Question	Answer
<p>Citation (Section 2.7): <i>"Standards compliance tests: Insofar as standards compliance tests have been conducted (according to the specification in Section 3.7 above)..."</i></p> <p>Citation (Section 2.10): <i>"...and reference to the use of the standards mentioned in Section 3.7 above."</i></p> <p>Question: Section 3.7, which only exists in Part 1 of the RFI, does not provide any information on standards compliance. Please provide the correct reference.</p>	<p>Please refer to section 2.6 and the standards your company specified according to that section</p>
<p>Can you sign an NDA & who do we send it to?</p>	<p>Our office does not sign NDA's in general. According to Israeli law, State employees are obligated to maintain confidentiality and none disclosure of commercial or other classified information that came to their knowledge in the course of their duties.</p>
<p>How do we submit the questions to the RFI (text response or via portal)</p>	<p>We consider your e-mail as your questions submitted.</p>
<p>We don't yet fully understand the scenario you're looking to solve. Can you elaborate further as to the potential use cases?</p>	<p>The main goal of the lab is to assist the Israeli government to asses Biometric systems/devices in terms of capabilities</p>

	(such as FAR, FRR, FTE rates, detect Presentation attacks, etc.) . In the near future, we will consider addressing additional use-cases.
Is security clearance is required to compete?	You do not need security clearance for submitting your reply to the RFI.
In the process past RFI what do you consider the process to be?	We will consider purchasing biometric systems/devices to test at the lab or pursue suggestions of tests or challenges given by the vendors, subject to our office's tender committee decisions.
When do we cover use cases and scenarios with the Unit (section 1, digital access, documents matching ect) & timelines for desired project completion?	There is no specific project to be considered at this point. We aim to asses the capabilities of the systems/devices exist today and estimate developments in the near future.
