

20 August 2025

International Public Tender No. 110-2024
For procurement, adjustment, testing, installation, instructing on, deployment
and maintenance of LIMS (Laboratory Information Management System) at
governmental medical centers
Clarifications

Clarifications regarding bid submission

1. Submission of the Bid will be done online as detailed in Section 5.5 of the tender documents (Part A).
2. The bid submission system digitally signs every file uploaded to it.
3. With respect to Section 5.4:

It is clarified that the following files must be uploaded to the system:

- i. The price quote in Excel format (Appendix D1).
 - ii. The remaining required files in both Word and PDF format.
 - iii. A blacked-out proposal in PDF format.
4. PDF files must be signed as required in the tender documents.
 5. In the case of a discrepancy between the PDF file and the Word file, the data stated in the PDF file takes precedence.
 6. The system allows you to upload up to 10 files, each weighing up to 15Mb.
One file is the price quote file in Excel format. The bidder can divide the rest of the response into files according to their convenience, provided that at the beginning of each file they write what this file contains.
 7. This directive overrides the directive requiring files to be divided into directories.

Updated Documents

8. Attached please find:
 - a. Part C with a correction in section 29.6.3.
 - b. Part D with a correction in section 29.7.2

Regards,

Division of Governmental Medical Centers
